

Amendments to the Claims

The following listing of claims replaces all prior versions and listings in the application:

Listing of Claims

1.-12. (Canceled)

13. (New) A computer readable medium storing a computer program containing instructions thereon for instructing a computer to perform operations comprising:

modeling savings associated with health care services using efficacy data, measured results, economic modeling methodologies, and published data.

14. (New) A computer readable medium storing a computer program containing instructions thereon for instructing a computer to perform operations for modeling savings associated with health care services, the operations comprising:

determining a savings based upon efficacy data from published research;

determining a savings based upon measured results, the measured results comprising one or more of the following savings components: gap closure savings, non-coverage determinations, cost avoidance, and productivity/revenue;

determining a savings based upon economic modeling methodologies, the economic modeling methodologies comprising savings assumptions; and

determining a savings based upon published data, the published data comprising one or more of the following components: clinical trials or observational data concerning complications or adverse events, published cost and savings estimates, and published wage data.

15. (New) The computer readable medium of claim 14, further comprising instructions for receiving an input from one or more data sources, the input comprising data for determining a savings.

16. (New) The computer readable medium of claim 15, further comprising instructions to generate a summary report, the summary report comprising a summary of the input from the one or more data sources.
17. (New) The computer readable medium of claim 14, further comprising calculating a return on investment (ROI) using one or more of the determined savings.
18. (New) The computer readable medium of claim 14, the efficacy data comprising data concerning one or more of the following conditions: asthma, chronic renal failure, congestive heart failure, diabetes, essential hypertension, and HIV/AIDS.
19. (New) The computer readable medium of claim 14, the savings assumptions comprising at least one of clinical assumptions and conservative assumptions.
20. (New) The computer readable medium of claim 14, further comprising an instruction to generate a cost report, the cost report comprising a cost estimate.
21. (New) The computer readable medium of claim 14, further comprising instructions to generate a savings report, the savings report comprising a representation of one or more of the determined savings.
22. (New) The computer readable medium of claim 21, wherein the savings report further comprises a graphical representation of a Return On Investment (ROI) statistic calculated in response to one or more of the determined savings.
23. (New) The computer readable medium of claim 21, wherein the savings report further comprises a representation of savings associated with a preventative/pre-screening care reminder program.
24. (New) The computer readable medium of claim 21, wherein the savings report further comprises a representation of savings associated with a productivity and revenue program.

25. (New) The computer readable medium of claim 14, wherein the instructions are embedded within a computer spreadsheet.
26. (New) A computer readable medium storing a computer program containing instructions thereon for instructing a computer to perform operations for modeling savings associated with health care services, the operations comprising:
- determining a savings arising from a closure of a gap in health care;
 - determining a savings arising from a prospective review for non-covered health services;
 - determining a savings arising from health-related reminder programs; and
 - determining a savings arising from decreased absenteeism.
27. (New) The computer readable medium of claim 26, further comprising instructions for receiving an input from one or more data sources, the input comprising data for determining a savings.
28. (New) The computer readable medium of claim 27, further comprising instructions to generate a summary report, the summary report comprising a summary of the input from the one or more data sources.
29. (New) The computer readable medium of claim 26, further comprising instructions to generate a savings report, the savings report comprising a representation of one or more of the determined savings.
30. (New) The computer readable medium of claim 29, wherein the savings report further comprises a graphical representation of a Return On Investment (ROI) statistic calculated in response to one or more of the determined savings.
31. (New) The computer readable medium of claim 29, wherein the savings report further comprises a representation of savings associated with a preventative/pre-screening care reminder program.

32. (New) The computer readable medium of claim 29, wherein the savings report further comprises a representation of savings associated with a productivity and revenue program.
